MEMORANDUM FOR THE RECORD

SUBJECT: 5 February SIG on Sanctions Related to Poland

1. The meeting, chaired by Stoessel, was on preparations needed for a mission to go to Europe to negotiate on US and European sanctions vs. the USSR and Eastern Europe.

2. The stated purpose is to get agreement on measures which would deny Western resources to the Soviet Union over the long run; also, to work out what the Europeans "not undermining our sanctions" means.

3. The main instruments mentioned were the Europeans agreeing to limit or stop new credits to the USSR/Eastern Europe; the US extraterritoriality position on compressor technology (which we might trade off for European willingness to limit credits); use of the European compressors in the Alaska gas pipeline, various non-US natural gas possibilities (Norway, Netherlands, Algeria, Trinidad); decontrol of US natural gas; and DoD business with Rolls Royce.

4. The needed papers are:

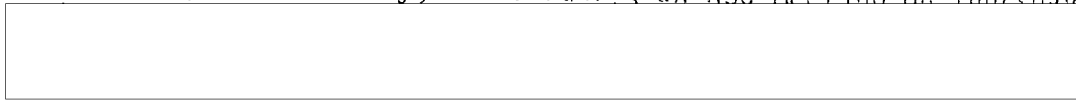

- Overall Strategy for the mission [redacted] 25X1
- The credit situation and impact of credit limits [redacted] 25X1
- The extraterritoriality issue [redacted] 25X1
